

WANTED!

People who live in, and want to conserve, our natural resources in the Lake Macbride Watershed. This is the last year for 75% cost-share.

REWARD!

The Johnson County Soil and Water Conservation District and its partners are offering **financial incentives** to promote the use of best management practices (BMPs) in the Lake Macbride Watershed. These practices can help the environment and the economy by protecting the quality of the water we rely on for drinking, industry, wildlife habitat, and recreation. Eligible BMPs include:

- Animal waste systems
- Buffer and filter strips
- Grade stabilization structures
- Grassed waterways
- Nutrient and pest management
- Pasture management and rotational grazing
- Stream bank stabilization
- Tree and shrub plantings of three acres or more
- Timber stand improvement
- Water and Sediment Control Basins
- Wetlands

Lake Macbride Watershed Advisory Committee

Rose Ann Deitch	Paul Moore
Chuck Gleason	Jack Neuzil
Ken Hook	Gwen Prentice
Tracy Hufford	Sam Stahle
Anne Kent	Kevin Tompkins
Mike Krall	Tony Ulch
Bill Leefers
